

# Read Around the World Library Summer Reading Program 2017!

Summer is approaching, and our hope is that reading is somewhere on the list of fun activities you and your family have planned!

To make reading during the summer even more fun, the Primary Library is offering a summer reading program for everyone who wishes to participate. Students can participate individually or as a family.

It's simple to do. Just pick up a Reading Travel Log from the Primary Library or download from the Library website and keep track of your reading over the summer. Every 20 minutes of reading is all it takes to travel from place to place.

There are no assigned books. Students can read independently or as a family and in any language, so all students from EY1-Grade 5 can participate!

In August, returning students bring their completed reading logs to the library.

There will be certificates, bookmarks, pencils and maybe even a little tasty treat for all who participate.

If you have any questions, just email me or stop by the Primary Library.

Wishing you all a terrific summer full of reading fun!

Judith Bows

Primary Librarian
